Welcome to Dome Group.

The Dome Group of Companies is a well-established engineering and contracting conglomerate with a diversified portfolio that includes HSE Consultancy, Supply & Agency, Construction & Maintenance, and Renewables & Energy Solutions services.

Since our inception in 1997, we have been committed to delivering high-quality services and cost-effective solutions to clients across various industries within the UAE & across the Middle East.

The Dome Group's exemplary performance is attributed to our seasoned and skilled team of professionals. Their experience and local expertise offers invaluable insights into various project types and scopes, leading to the seamless delivery of successful projects. Our well-rounded approach encompasses meticulously examining client's needs to tailor custom solutions that satisfy all requirements while maintaining the highest standards of safety, quality, and execution. Our commitment to excellence has established Dome Group as a leading and highly respected company in the region.

The Dome Group actively supports sustainability and social responsibility initiatives as part of our commitment to corporate citizenship.

Discover Dome

1997

Established in the UAE
with offices in Dubai
and Abu Dhabi.

1998

Opened first
international office in
Baghdad, Iraq.

2009

Expanded presence in
Yemen with second
office in Aden.

1999

Entered the
Yemen market.

2011

Established two new
construction companies,
Dome DZ (Abu Dhabi, UAE)
and Al Qubba (Basra, Iraq).

2015

Diversification into
Renewable Energy via Dome
Advanced (Dubai, UAE).

2023

Further expansion
to Riyadh, Saudi Arabia.

2017

Established office in
Muscat, Oman.

Leadership Team

Talal Al Yafei
Chairman

Talal Daair Al Yafei is a seasoned entrepreneur and executive with extensive experience in the international oil and gas industry, spanning exploration, development, and operations. He holds an M.Sc. in Management of Technology from MIT Sloan and a B.Sc. in Engineering from City University, London. A Chartered Engineer, he previously held key leadership and engineering roles at Crescent Petroleum, ADMA-OPCO and British Petroleum. As the co-founder and former Managing Director of Dome Group, he played a pivotal role in its regional expansion. He currently serves as Chairman of the Dome Group, guiding its strategic direction.

Khaled Daair
Group Managing Director

Khaled Daair Al Yafei is a qualified Chartered Accountant (ICAS) with a B.Sc in Economics and Politics from the University of Bath. After beginning his career at Ernst & Young, he held various Finance positions within organizations across the UK, South Africa and Bahrain, including as Vice President at Investcorp Holdings B.S.C. Initially joining the Dome Group as Deputy Managing Director, he was promoted to Managing Director in 2024 and is now responsible for leading all operations across the Group.

Chairman's Message

At Dome, we take pride in the diversity of our business, extensive geographical coverage, and most importantly, in our multinational workforce. Thanks to the hard work & dedication of our staff and the extensive support & guidance of our Leadership team, we have consistently delivered work of the highest quality that exceeds our clients' expectations for well over 25 years. It is an honor for me to lead such a Group, and I look forward to supporting Khaled and his management team in every step of our continued journey toward success.

HSE CONSULTANCY

OVERVIEW

The Dome Group offers comprehensive Health, Safety, and Environmental (HSE) consultancy services designed to enhance safety and sustainability across various industries. Our expert team provides tailored solutions that include risk assessments, safety audits, compliance management, and training programs, ensuring that clients meet regulatory requirements and maintain the highest safety standards. By leveraging advanced methodologies and a deep understanding of industry-specific challenges, we help organizations create safer workplaces and promote a culture of safety. Our commitment to HSE excellence empowers clients to protect their people, assets, and the environment effectively.

SCOPE OF SERVICES

Risk and Safety Consultancy

- HSEIA Safety Case
- Formal Safety Assessments / Design Safety Engineering Support
- Risk and Safety Modelling
- Workshop Facilitation

Environmental Consultancy

- Comprehensive Environmental and Social Impact Assessment Studies and Permitting
- Expert Environmental Management and Auditing
- Environment Monitoring and Surveys for Sustainable Impact
- Advanced Environmental Modeling and Assessment

Occupational Health Services

- Occupational Health Studies
- Industrial Hygiene Monitoring
- Occupational Health Modeling Services

Environmental Studies for Hail & Ghasha Development (HGD) Project and CO2 Recovery for ADNOC Offshore, UAE

Dome has been appointed by ADNOC to undertake the Environmental Impact Assessment (EIA) study for the Project during the FEED phase and later in EPC stage.

Safety & Environmental Studies for EPC of Dalma Gas Development Project for ADNOC Offshore, UAE

As part of DGD project, Dome has been contracted by Tecnicas Reunidas (Main Contractor) to undertake all the Safety & Environmental studies, HSEIA Dossier and procedures for the EPC package of the DGD project.

EIA Study for water & waste water project, Oman

Libanconsult LLC is undertaking the detailed design for the Project and construction supervision for the development of the Project's infrastructure facilities. Dome is appointed to conduct Environment Impact assessment (EIA) for the project.

Environmental and Social Impact Assessment (ESIA) Study for KAI Dev, Iraq

Dome has been commissioned by Crescent Petroleum to undertake the Environmental and Social Impact Assessment (ESIA) for the Project in accordance with the with the Iraqi environmental regulations and relevant international guidelines (i.e., IFC ESIA requirements and Performance Standards).

CONSTRUCTION & MAINTENANCE

OVERVIEW

The Dome Group offers comprehensive construction and maintenance services, delivering end-to-end solutions for various industrial and infrastructure projects. With a commitment to quality and safety, we specialize in executing complex projects across sectors such as oil and gas, power, and petrochemicals. Our skilled team ensures seamless project delivery, from initial design and engineering to final execution and maintenance, while adhering to the highest industry standards. By leveraging advanced technologies and innovative practices, we provide cost-effective solutions tailored to meet our clients' specific needs, ensuring long-term reliability and operational excellence.

SCOPE OF SERVICES

- Civil and Mechanical construction works for Oil & Gas and Power Plants
- Electrical and Instrumentation construction works for Oil & Gas and Power Plants
- Fabrication & Piping
- Tank construction works
- Telecommunication & Low Current works
- Substations
- Maintenance and Shutdowns Services

CONSTRUCTION COMPANIES OF DOME

- Dome DZ International General Contracting LLC, UAE
- Dome Industrial & Engineering Services Complex Company Ltd, Yemen
- Dome Advanced Electromechanical Works, UAE
- Al Qubba Engineering Services, Iraq
- Dome Integrated Solutions LLC, UAE

Optimum Shah Gas Expansion (OSGE), UAE

Dome was awarded the complete Electrical and Instrumentation construction works for ADNOC Sour Gas project which includes:

- Equipment Installation like LV Switchgears, Protection Panels, Distributions Boards, DC System (UPS, Batteries), Lighting Panel, Emergency Push Bottoms, LCS, Power Secondary JB's etc.
- New Extension from existing general facility to new facility.
- Demin Package Works.
- All MV & LV Cable Laying and Termination works.
- Lighting & Earthing.
- Cable routing & Cathodic protection.
- All Instrumentation works.

Abu Dhabi Airport-Midfield Terminal Building Project, UAE

Dome successfully completed the electrical works for Abu Dhabi Airports Company (ADAC), including the following tasks:

- Cable Tray, Conduit works and supports
- Abu Dhabi Airport-Midfield Terminal Building Project, UAE
- Lighting, Emergency lighting with Small Power and Sockets
- IT and Telecom
- Cable laying and Terminations
- Access Control and CCTV
- Fire Alarm
- LV Room, Installation, Termination and Testing
- MV Room, Transformers, Installation, Termination

Projects with OMV, Yemen

Dome successfully completed miscellaneous construction project for OMV which includes:

- Inspection, Refurbishment, painting, and re-erection of 8 Existing Produced Water / Salt Water Storage Tank.
- Power Generation WP1.
- All Power and control works for MCC Building and power Generation including MV/LV Switchgear installation, Cable pulling and termination, instrumentation and control works.
- Mechanical works for Rolls-Royce Generator.
- Completion of Crude Oil Tank 3602 & 3603 at CPF.
- All civil and electrical works.

Carbon Black & Delayed Coker Project, UAE

Dome was awarded to execute all Electrical & Instrumentation works which includes the following:

- 3 Nos. Substations including all equipment MV & LV switch-gear & cable laying over 2,100Km.
- E & I works on all process areas.
- Telecom Systems.
- Testing & Pre-commissioning including loop testing of 19,000 Nos.
- HV Pre-commissioning and testing.

RENEWABLES & ENERGY SOLUTIONS

OVERVIEW

The Dome Group is at the forefront of the energy transition, providing innovative and sustainable energy solutions tailored to meet the growing demands of the industry. Dome has successfully executed over 70 MW of Solar PV projects as of date. Our services offer turnkey solutions that include Feasibility studies, Engineering, Procurement, Construction, Commissioning and maintenance of plant. With a commitment to sustainability and environmental stewardship, we integrate cutting-edge technologies and industry best practices to deliver efficient and reliable energy solutions. Our team of experts ensures each project is optimized for performance and sustainability, helping clients achieve their energy goals while minimizing environmental impact.

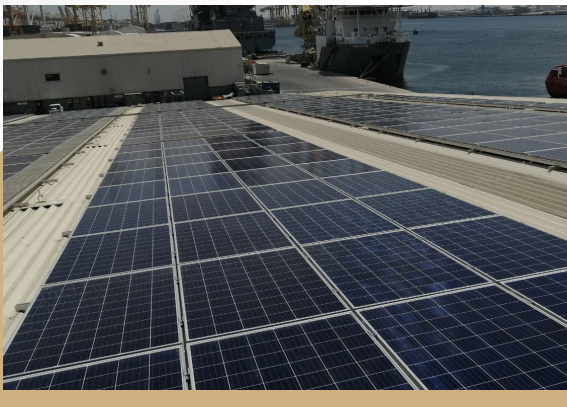

SCOPE OF SERVICES

- Engineering, Procurement, and Construction of Ground Mounted and Rooftop Solar Plants
- Solar PV Power Plant Design and Development Consulting and Project Management
- On-grid / Off-grid Solar Power Plants on EPC basis
- Hybrid Power system - BESS with Diesel Generators or Solar Power
- Operation & Maintenance of Solar power plants
- Energy Efficiency Solutions for building HVAC systems using AI Technology

Solar power plant for TCF and Camps for Hail & Ghasha Development Project, Abu Dhabi

Dome has been appointed to design, supply & install solar power plant to one of largest Oil & Gas project – Hail & Ghasha Development project. The project is for Onshore part (package 1) of the project. The scope includes provision of 1MW Solar plant (ground mounted) for the camp and 1 MW Rooftop Solar plant for Temporary contractor's facilities (TCF) on EPC basis.

DP World, Dubai

Capacity: 3250 kWp

Location: Mina Jebel Ali, Dubai

Type of installation: Roof top

Estimated Generation (25 Years): 122,490 MWh

Contract Type: EPC

Dubai World Trade Centre, Dubai

Capacity: 1950 kWp

Location: Dubai World Trade Centre

Type of installation: Roof top

Estimated Generation (25 Years): 73,494 MWh

Contract Type: EPC

PV2 Al Dhafra Solar project (1.5 GW), Abu Dhabi

Dome executed the following works as part of construction scope for the mega solar PV project:

- Cable Trench Excavation, Preparation of beddings & Backfilling.
- Laying of HDPE Pipes for Road Crossing & RS Cable Protection.
- Cable Laying, Tagging & Dressing (MV up to 36KV, LV, Tracker Cable & FO).
- Laying of Conduits.
- Cable Termination up to 36KV.
- Installation of Inverter & MV Power Stations.
- Earthing Works / Fire Proofing Works.

SUPPLY & AGENCY

OVERVIEW

The Dome Group specializes in providing reliable supply and agency services to support various industries, including oil and gas, petrochemicals, construction, and infrastructure. Our services include the procurement and delivery of high-quality equipment, materials, and spare parts from leading global manufacturers. With a vast network of suppliers and a deep understanding of market dynamics, we ensure timely and cost-effective solutions tailored to meet our clients' specific needs. Dome provides these services in UAE, Oman, Iraq and Yemen. Our commitment to excellence and customer satisfaction drives us to deliver unmatched service, ensuring that our clients have the resources they need to succeed in their projects.

SELECTION OF OUR PRINCIPALS

Fugitive Gas Emission Monitoring

Dome has a five-year, long-term agreement with ADNOC Group for the Oil and Gas Methane Partnership (OGMP-2) that includes monitoring of fugitive emissions, vent emissions, and combustion efficiency ensuring compliance with industry regulations.

Long Term Technical Services Contracts for Maintenance of Centrifugal Gas Compressors

Inspection, Maintenance and Repairs of MAN TURBO, MITSUBISHI, G.E, DRESSER RAND, ELLIOT, SIEMENS DEMAG, DELAVAL STORK, KAWASAKI, YORK and HITACHI Centrifugal Gas Compressors and Auxiliaries for ADNOC Onshore and ADNOC Offshore.

Principal – TST

Wireless Programmable Surface Gauges for Well Monitoring

Supply of innovative IoT solutions for monitoring of remote assets including wellheads. We offer customized surface gauges depending on client requirements.

Principal – IDS

Fire Fighting System

Design, manufacturing, testing, commissioning and training for fire fighting vehicle / system with water (1,000 L), foam (3,000 L) & DCP (500 kg) tender and a 28m platform for ADNOC Refining.

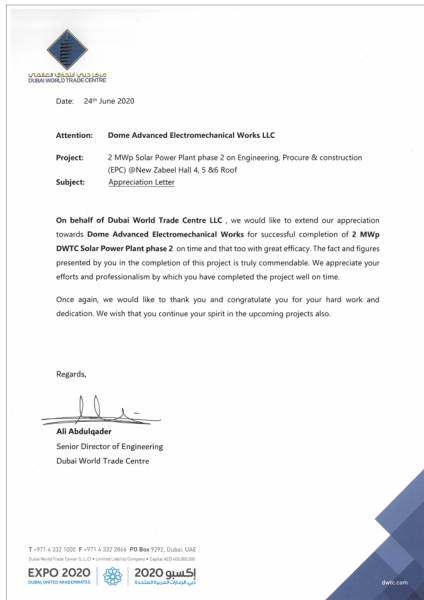

Principal – Chinetti
